200 Barnes Street
Apartment 16D
Carrboro, NC 27510

Jonathan P Williams

EDUCATION

University of North Carolina, Chapel Hill, NC 2014 - 2019
Department of Statistics and Operations Research
PhD Statistics
Advisors: Dr. Jan Hannig (UNC) and Dr. Curtis Storlie (Mayo Clinic)

New York University, New York, NY 2012 - 2014
Courant Institute of Mathematical Sciences
MS Mathematics
Advisor: Dr. Ying Lu

Eastern Michigan University, Ypsilanti, MI 2008 - 2012
Honors College
BS double major in Economics and Mathematics, minor in Finance
Summa Cum Laude

PEER-REVIEWED PAPERS

1. **J P Williams**, Y Xie, and J Hannig (2019+). The EAS approach for graphical selection consistency in vector autoregression models. *In review.*
2. **J P Williams**, C B Storlie, T M Therneau, C R Jack Jr, and J Hannig (2019). A Bayesian approach to multi-state hidden Markov models: application to dementia progression. *To appear in the Journal of the American Statistical Association.*
3. **J P Williams** and J Hannig (2019). Non-penalized variable selection in high-dimensional linear model settings via generalized fiducial inference. *The Annals of Statistics* 47 (3), 1723-1753.
4. E Sechi, E Shosha, **J P Williams**, S Pittock, B Weinshenker, M Keegan, N Zalewski, S Lopez-Chiriboga, J Jitprapaikulsan, E Flanagan (2019). A Population-Based Study of Idiopathic Transverse Myelitis with Aquaporin-4-IgG and Myelin-Oligodendrocyte-Glycoprotein-IgG Assessment (S11.007). *Neurology*, 92, (15 Supplement) S11.007.
5. I Carmichael and **J P Williams** (2018). An exposition of the false confidence theorem. *Stat*, 7 (1), p.e201.
6. **J P Williams** and Y Lu (2015). Covariance Selection in the Linear Mixed Effect Model, *Journal of Machine Learning Research: Workshop and Conference Proceedings*, 44, pp.277–291. (NIPS conference session)

PRESENTATIONS

1. The EAS approach for graphical selection consistency in vector autoregression models. *Sixth Bayesian, Fiducial, and Frequentist Conference on Model Uncertainty*, Duke University and SAMSI, May 2019 (**invited**).
2. Non-penalized variable selection in high-dimensional settings via generalized fiducial inference. *Seminar*, Department of Statistics, University of Florida Gainesville, January 2019.

3. Non-penalized variable selection in high-dimensional settings via generalized fiducial inference. *Seminar*, Department of Statistics, Iowa State University, January 2019.
4. Non-penalized variable selection in high-dimensional settings via generalized fiducial inference. *Seminar*, Department of Statistics, University of Illinois Urbana–Champaign, December 2018.
5. Non-penalized variable selection in high-dimensional settings via generalized fiducial inference. *Seminar*, Department of Statistics, North Carolina State University, December 2018.
6. Non-penalized variable selection via generalized fiducial inference. *Graduate Seminar*, Department of Statistics and Operations Research, UNC Chapel Hill, November 2018.
7. Non-penalized variable selection via generalized fiducial inference. *AISC 2018 International Conference on Advances in Interdisciplinary Statistics and Combinatorics*, UNC Greensboro, October 2018.
8. Non-penalized variable selection in high-dimensional settings via generalized fiducial inference. *27th Nordic Conference in Mathematical Statistics*, Tartu, Estonia, June 2018 (**invited**).
9. A Bayesian approach to multi-state hidden Markov models: application to dementia progression. *Graduate Seminar*, Department of Statistics and Operations Research, UNC Chapel Hill, September 2017.
10. Non-penalized variable selection in high-dimensional linear model settings via generalized fiducial inference. *Graduate Seminar*, Department of Statistics and Operations Research, UNC Chapel Hill, February 2017.
11. A Bayesian approach to multi-state hidden Markov models: application to dementia progression. *Tea Time for Science*, Biomedical Statistics and Informatics, Health Sciences Research, Mayo Clinic, Rochester, MN, August 2016.

POSTER PRESENTATIONS

1. Non-penalized variable selection via generalized fiducial inference. *Fifth Bayesian, Fiducial, and Frequentist Conference*, University of Michigan Ann Arbor, May 2018.
2. Generalized fiducial inference for high dimensional problems. *Invited Poster Session, Joint Statistical Meeting*, Baltimore, MD, July 2017 (**invited** poster with Jan Hannig).
3. Non-penalized variable selection in high-dimensional linear model settings via generalized fiducial inference. *Fourth Bayesian, Fiducial, and Frequentist Conference*, Harvard University, May 2017.
4. Covariance Selection in the Linear Mixed Effect Model. *Feature Extraction: Modern Questions and Challenges, NIPS*, Montreal, Canada, December 2015.

AWARDS

Graduate Student Travel Grant – 1,000 USD	Summer 2018
Carl M. Erikson Mathematics Department Scholarship	2011 - 2012
Regents Scholarship	2009 - 2012
National Scholars Program Scholarship	2008 - 2012
Leader Award Scholarship	2009 - 2011

PROFESSIONAL ACTIVITIES

Referee for *Journal of Computational and Graphical Statistics* (once)
Referee for *Journal of Statistical Planning and Inference* (once)
Referee for *Stat* (3 times)

TEACHING

STOR-BIOS Dept Boot Camp for incoming stat and biostat grad students Summer 2017

· Manager of the two-week Boot Camp, and instructor of the real analysis section.

Teaching Fellow, UNC, Chapel Hill, NC 2014 - 2016

· Introduction to Statistics (Full teaching responsibilities for a class of 46 and for a class of 83 students).

· Introduction to Statistics (Teaching Assistant).

· Undergraduate Regression Analysis (Teaching Assistant).

WORK EXPERIENCE

· Research Collaborator, Mayo Clinic, Rochester, MN 2017 - Present

· Biostatistics Intern, Mayo Clinic, Rochester, MN Summer 2016

· Statistical Consultant, Caster Concepts, Inc, Albion, MI 2011 - 2014

· Tutor (economics and mathematics), Eastern Michigan University, Ypsilanti, MI 2009 - 2012

OTHER ACTIVITIES

Fed Challenge Competition - Chicago Federal Reserve District March 2008, November 2008, 2009, 2010, 2011
